

Fulbright Senior Specialist Program (FSSP)

2014

The **FSSP** supports Australian universities to host U.S. academics or professionals as guest speakers, lecturers and/or collaborative researchers.

The **FSSP** seeks to develop a curriculum, build research links and establish ongoing institutional partnerships. It provides a grant to support a Fulbright Senior Specialist's visit to Australia for 2 to 6 weeks.

The Fulbright Program provides successful Fulbright Senior Specialists with an international economy airfare and a US\$200 per day honorarium.

The Australian host institution must be prepared to cover the cost of Specialist's housing, meals, and any necessary, program-related, in-country transportation.

Interested **Australian institutions** should apply for this grant at: <http://www.fulbright.com.au/scholarships/for-australian-educational-institutions?layout=edit&id=159>

Australian institutions should demonstrate the benefits and outcomes of the visit, as well as the support they will provide to the Fulbright Senior Specialist (in addition to the Fulbright Program funding).

American academics or professionals who wish to get on the Fulbright Senior Specialist Roster (held by the Council of International Exchange of Scholars, CIES) should apply at: <http://www.cies.org/Specialist/Apply/>

Applications are open, and will close 28 October 2013
