

## SAVE THE DATE!

### WHAT PAST ATTENDEES ARE SAYING

#### About the Fundamentals of Surgical Research Course:

*"This is valuable in providing guidance as I navigate trying to become successful as an academic surgeon. It is extremely beneficial to learn from those who have preceded me."*

*"The course helped me to explore and learn about various research paths and basic overview of methods to help me better implement and improve upon my research career."*

*"Provided a great foundation of how to start in the small picture of research projects as well as the big picture of a career."*

#### About the Early Career Development Course:

*"Very applicable at this early stage. Every lecture was useful and gave me insight into a different aspect of establishing my career as an academic surgeon."*

*"Very valuable. I am just starting as a new attending and have been trying to figure out how to orient myself moving forward academically."*

*"Invaluable. The information provided is something that is not openly or clearly discussed within my training program, and I appreciated taking one day out of my life to listen to the best advice and contemplate how to incorporate the advice into my career moving forward."*

## Fundamentals of Surgical Research Course Saturday, October 20, 2018

### WHO SHOULD ATTEND?

Junior Faculty Pursuing a New Research Career  
Fellows  
Residents  
Undergraduate and Medical Students

### LEARN HOW TO:

- Find the right mentor for your research
- Efficiently manage time to succeed in research project
- Apply for research funding, and where to obtain these funds
- Develop a hypothesis and design experiments to test it
- Submitting work for national meetings
- Deliver an effective research presentation
- Prepare and revise a manuscript based on research findings
- Optimize success in basic/translational research and clinical/health services research (via breakout sessions)
- Conduct global surgical research
- Conduct educational/simulation research

## Early Career Development Course Saturday, October 20, 2018

### WHO SHOULD ATTEND?

Junior Faculty in their first 5 years of practice  
Fellows  
Senior Residents
